WORK EXPERIENCE

TECHNICAL PROJECT MANAGER / ACTING HEAD OF DEVELOPMENT (REMOTE, FULL-TIME) – DIGITAL AUTHORITY PARTNERS – 01/06/2024 – Current – CHICAGO, ILLINOIS, UNITED STATES

Department: Web Development and AI Automation | **Email:** alamin.alif@digitalauthority.me |
Website: https://www.digitalauthority.me/

- Lead the Web Development Team end-to-end - guiding architecture decisions, backlog prioritization, sprint planning, and quality oversight - without acting as a hands-on developer.
- Run bi-weekly Web Development sprints and the AI team's Scrum, covering backlog refinement, planning, reviews, and retrospectives; track velocity and unblock execution.
- Translate complex business/technical requirements into user stories and acceptance criteria; maintain a clear roadmap → sprint → release cadence.
- Oversee multi-project delivery from discovery to deployment, ensuring scope, timeline, budget, and quality alignment across client accounts.
- Serve as primary technical liaison across Development, AI, SEO, Content, Design, and Product - driving alignment and stakeholder satisfaction.
- Apply strong technical literacy across CMS (WordPress, Webflow, Squarespace, Joomla, Shopify), hosting/DNS/CDN (Cloudflare, DigitalOcean, WP Engine, Pantheon, GoDaddy, SiteGround, Hostinger, Name.com), and QA/integration workflows.
- Use HubSpot CRM for pipeline visibility, stakeholder communication, reporting dashboards, and project coordination.
- Manage projects across Asana, ClickUp, Slack, Harvest, Everhour, and DAP's proprietary PM system; standardize SOPs and documentation for repeatable delivery.
- During bandwidth spikes, execute non-code admin across CMS/hosting: content updates, plugin/config management, environment migrations, DNS/SSL checks, launch support, and basic troubleshooting.
- Drive continuous improvement—improving estimation accuracy, cross-team communication, and hand-offs; mentor team members on delivery best practices.

HEAD OF SERVICE DELIVERY (REMOTE, FULL-TIME) – INBOUNCY LLC – 01/06/2019 – 31/05/2024 – SHERIDAN, WYOMING, UNITED STATES

Department: Client Services / Service Delivery | **Website:** https://inbouncy.com/

- Directed end-to-end service delivery across SEO, content, CRM operations, digital marketing, and web development - owning onboarding, planning, execution, reporting, and renewals.
- Led cross-functional teams (Developers, SEO Specialists, Content Writers, PPC Analysts, RevOps) and enforced SOPs/QA for consistent quality.
- Designed and optimized delivery pipelines, improving throughput and on-time delivery across multi-client portfolios.
- Served as primary client strategy partner for technical SEO, site architecture, content planning, and analytics-driven insights.
- Implemented HubSpot pipelines, task automation, dashboards, and reporting - boosting visibility and hand-off speed between teams.
- Coordinated integrated campaigns across SEO, content, paid, and web - aligning deliverables to KPI targets and stakeholder priorities.

JUNIOR ACCOUNT MANAGER – ONELITTLEWEB LTD. – 01/07/2021 – 31/01/2023 – DHAKA, BANGLADESH

Department: SEO, Content, and Operations | **Website:** https://onelittleweb.com/

- Managed SEO client accounts and coordinated delivery across outreach, content, and technical SEO teams.
- Led link-building programs (prospecting, outreach, email workflows, anchor-text planning) and maintained quality standards.
- Conducted keyword research, competitor/SERP analysis, and content planning aligned to intent and ranking opportunity.
- Oversaw content workflows - briefs, writer assignments, editing, QA, and publishing schedules.
- Used Ahrefs, Semrush, GA4, Search Console, Screaming Frog, Moz, and Yoast/Rank Math for audits, reporting, and opportunity sizing.
- Supported month-over-month KPI improvements (traffic, rankings, link acquisition) through structured reporting and client communication.

EDUCATION AND TRAINING

2026 – CURRENT Borlänge, Sweden

MASTER'S IN DATA SCIENCE Dalarna University

Focus areas:

- Developing advanced skills in machine learning, predictive analytics, statistical modelling, and AI-driven decision systems.
- Learning methods for handling large-scale data processing, including distributed computing and cloud-based data pipelines.
- Gaining competency in Python, R, and modern data science tooling, with emphasis on scientific computing and reproducible research.
- Exploring deep learning, natural language processing, and computer vision in applied contexts.
- Training in data engineering concepts, including ETL, data warehousing, and database architecture for analytics.
- Engaging with real-world datasets through applied projects and research-oriented assignments.
- Building expertise in ethical AI, data privacy, and responsible innovation, aligned with EU data standards.

Activities & Involvement:

- Active member of the Dalarna University Student Union, participating in academic and community initiatives, student advocacy, and networking events.
- Engaged with university-hosted seminars on AI, cloud computing, and data-driven innovation.
- Participating in peer-learning groups for Python, statistics, and machine learning foundations.

Planned Projects & Learning Goals:

- Pursuing hands-on projects in supervised/unsupervised learning, data visualization, and predictive analytics.
- Planning to specialize in machine learning engineering with a focus on deployment and MLOps.
- Aiming to conduct thesis research related to AI applications in agriculture, climate data, or automation (aligned with my previous thesis).
- Intending to build data science solutions using Python, Scikit-learn, TensorFlow, and cloud services (Azure/AWS).

2014 – 2019 Dhaka, Bangladesh

BACHELOR OF SCIENCE IN COMPUTER SCIENCE AND ENGINEERING BRAC University

- Software engineering and system design
- Data structures and algorithms
- Web and mobile application development
- Database systems and SQL
- Operating systems and computer networks
- Object-oriented programming (Java, C, Python)
- Data science and machine learning (introductory level)
- Project management and software lifecycle
- Human-computer interaction and UX principles
- Final year thesis on: Crop Prediction Based on Geographical and Climatic Data using Machine Learning and Deep Learning
- Additional projects:
    - Music Player with Pedometer (Android application)
    - Farmer-following Automated CropBot
    - Smart Helmet for Motorbikes Using Arduino
    - Excessive Passenger Control in Public Transport using Microsoft Kinect

Awards and certifications:

- Certificate on completing a 50-hour workshop on "Work Order Analysis" by Kazi IT Center

- Certificate in recognition of role as Secretary of Human Resources for BRAC University Cultural Club
- Certificate for completing Debate as an Activity at Residential Semester, Savar Campus

Level in EQF EQF level 6 |

Thesis Crop Prediction Based on Geographical and Climatic Data using Machine Learning and Deep Learning

2012 – 2013 Dhaka, Bangladesh

GCE ADVANCED LEVEL Cambridge International Examinations

Awards and Certifications:

- Certificate for volunteering on the Leadership Development Summer Challenge by the Physically-challenged Development Foundation (PDF)
- Certificate for completing First Responder Training by Operation Smile and Tulane University
- Certificate for volunteering on the Nutrition for Infants awareness program by the Youth of Bangladesh (YOB)
- Certificate of Excellence from The Daily Star for outstanding results in GCE A Level Examinations

Field of study Science | **Final grade** 5 out of 5 | **Level in EQF** EQF level 4

1998 – 2011 Dhaka, Bangladesh

GCE ORDINARY LEVEL Cambridge International Examinations

Awards and Certifications:

- Certificate on Young Learners Exams (Starters) by the University of Cambridge
- Certificate for participating in the Youth Wave Students' Society competition
- Certificate of Excellence from The Daily Star for outstanding results in GCE O Level Examinations
- Attained 100% marks (world's highest) on English Language during GCE O Level Examinations

Field of study Science | **Final grade** 5 out of 5 | **Level in EQF** EQF level 3

LANGUAGE SKILLS

Mother tongue(s): **BANGLA**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
